

AppBuilder

Is there a search bar or are there anyway to make one?

Yes there is a way to make one in AppShed. This feature will be for your local search in the App. Always ensure that all your links and icons are named.

On your home screen:

- Click on "output box" on "Forms"
- Once your feature is loaded on the home screen. Left click and edit it.
- On the Editing page, select on "Advanced"
- Tick on "Local search"
- Click "Save"
- Publish your app
- Share your app using your preferred option.
- Use the feature.
