

EDU Accounts

Problems logging in with an EDU Account.

We have recently changed the way school administrators log in. They are now required to enter their school code to log in. So make sure you enter the School Code beneath the password box when you log in.

Why did we do this?

We had a strange situation where the main school admin was the only school user that did not use the school code. This was creating some confusion with users. So the best solution was to enforce the School Code for every user at a school.

Unique solution ID: #1080
