

Gallery

Gallery

Is it possible to bulk upload photos into the gallery as opposed to doing one at a time?

You can upload multiple emails from your computer into AppShed. This video should help (see screengraps box). It is currently not possible to add images to a gallery in bulk. You have to add a separate image item for each picture. (This is something we might be adding over the next few months). You can upload your images to a Flickr gallery and use the Flickr extension to show a whole gallery in one step. In the actions, choose "Extension" and then select Flickr. You need to upload the images to Flickr beforehand.

Unique solution ID: #1046
